Recommend

Part 6:

Leather cases

We have leather Case of more than 100 styles, which can make samples according to your requirements. Due to the attachment limited,

For more information about the leather cases, please contact us.

The phone case inventory is the biggest cost and enemy of phone case sales companies.

How to reduce the inventory of phone case?

We will introduce many unique design of universal leather cases that you have never seen before.

1 Unique Universal Leather Case That You Never Seen Before

Like Ordinary Leather Cases, Variety Of Designs That Subvert The Traditional Universal Leather Cases

More Information

1. Two sizes and less than 10 SKUs can meet the needs of the consumers of all different mobile phone models
2. It is completely different from the traditional universal leather case
3. Many unique designs, such as phone screen window design, even many non general leather cases can not provide this kind of function
4. Different from the traditional universal leather case, it has more mobile phone protection and security design
5. Customized cases with different structures, materials and colors are available
6. For more information about this universal leather case, please contact us

One of the unique designs: mobile screen window design, consumers can easily know the time and call number

2

Leather Case ---Hot Press Molding Version

Ultra-thin Leather Case, Leather And Patterns Can Be Customized

Ultra-thin

More Information

1. There is no difference in appearance with ordinary leather cases of the same type: internal microfiber + external PU leather
2. Using machine hot pressing, one-time molding instead of manual production of traditional leather case
3. The biggest advantage: thin, low cost, fast delivery time
4. After printing the pattern on the PU leather, it can be formed by hot pressing, and the product pattern is diversified
5. Currently only for iPhone12 and iPhone13, other mobile phone models can be opened according to customer requirements
